EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 1, line 17, change "to dynamically biases" to --dynamically bias--.

In [0001], line 2, change "in bootstrap charging circuit" to --in bootstrap charging circuitry--.

Allowable Subject Matter

2. Claims 1-12 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose the claimed bootstrap diode emulator circuit (claims 1-6) in a half-bridge switching circuit (claims 7-12), particularly characterized by a dynamic back-gate biasing circuit operable to dynamically bias an LDMOS transistor in the bootstrap emulator circuit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

The U.S. Patents cited on Form 892 included with this communication disclose various embodiments of diode emulators in half-bridge switching circuitry (yet none disclose a dynamic back-gate biasing circuit operable to dynamically bias an LDMOS transistor in the bootstrap emulator circuit).
